INSTRUCTIONS FOR USING AGL MARBLE AND QUARTZ SLABS

- Check the slabs delivered to you to make sure that design and shade is as per your order.
- Take care to ensure that slabs are not rolled, thrown or hit during transportation.
- Slabs to be stored under covered area, with full support at the back, away from direct sunlight.
- Always use cutting board for cutting and chopping slabs.
- **Slab installation to be done using Polymer modified Adhesive or PU based Adhesive only.**
- Before fixing on the concrete floor ensure that the surface is clean and levelled.
- **Avoid using POP (Plaster of Paris) on the surface of the slabs.**
- Also refrain from using acid or alkaline detergents. These can permanently damage the slab surface.
- Use only Neutral stone cleaners/acetone on stains.
- Use Insulating pad when placing hot objects on slab.
- Remove the lamination sheet immediately after 24 hours of installing the slabs. (flooring/wall cladding or counter top.)
- For more information, kindly refer the installation and maintenance hand book or visit www.aglasiangranito.com you may also reach us on our **Toll Free Number : 1800 123 3455**
